PHOSPHATE LAND IN MOROCCO

(Correspondence Associated Press)

PARIS, June 13.—Discovery of large deposits of phosphate in the Moroccan hinterland, may soon make France the great phosphate producing country of the world.

The Moroccan deposits are reported by Professor Louis Gentil of the Sorbonne as being almost inexhaustible. One hundred miles inland from Casablanca there is a mountain plateau, 40 miles long and 25 miles wide which is a veritable storehouse of phosphate. A railway is to be built to this mountain and a monopoly has been given to the Moroccan government for the sale of the phosphate.

France already has huge phosphate deposits in Alsace.

FUNERAL CARS COMMON IN CITY OF MEXICO

(Correspondence Associated Press)

MEXICO CITY, June 21.—Street car funerals are not uncommon in Mexico. A string of eight or ten cars, heavily draped in black, may be seen occasionally passing through the principal streets. The first car carries the body, the next two or three containing huge floral offerings and the last cars are filled with mourners.

FONDNESS FOR YANKEE STYLE

(Correspondence of Associated Press)

BUENOS AIRES, June 8.—Young Argentines by the thousands ought to be sent to North American universities, says La Prensa, a local newspaper, "in order to assimilate the manners of work, the methods of scientific investigation, the rapidity of execution and above all the vigor and eager vitality that characterize North American life."

Out of 6,634 foreign students now enrolled in the larger universities in the United States, only 14 are Argentines, says the newspaper. Argentines have been called the "Yankees of South America" by other countries of the continent but these figures go to disprove the statement that the "Vital Yankee" with which the Argentine people are credited has been transmitted by Argentine youths who have returned from North American centers of learning.

"The character of Argentine energy is not a consequence," continues La Prensa, "of an imitation of the pushing North American life. Our progress is due to our own effort, the effort of Argentines and assimilated foreigners who reside among us. And until now, when happily the North Americans are beginning to direct their action toward this country, the influence of capital has been European, especially English."

RESULT OF THE IRISH ELECTION

(Correspondence of Associated Press)

DUBLIN, June 18.—The net result of the recent county council elections is that now both in the cities and in the counties in 25 out of the 32 counties the local government is in direct hostility to the central government.

The first conflict between them will arise out of the question of payment of compensation for outrage. Every day the judges are awarding to the relatives of murdered policemen, to injured policemen, and to the owners of burned police premises large sums as compensation chargeable on the local rates. The total already runs up close to £750,000.

The local authorities have refused to collect taxes for these payments. In the case of some of them the government can secure money by deductions from the sums payable to the local authorities by the imperial exchequer in relief of local taxes.

In the majority of cases the parties awarded compensation have only acquired a right to sue the local authorities in the courts for the money. It is believed that even after the judgment is given, the local authorities will refuse to pay. Many of them have passed resolutions saying they will recognize no authority save that of Dail Eireann.

The government has decided to introduce a bill in Parliament to enforce payment of this compensation money.

TRICKY RIDERS BROUGHT UNDER THE FRENCH LAW

(Correspondence Associated Press)

PARIS, June 18.—So many queer-looking races, despised outsiders, defeating illustrious horses, have been uncovered at the metropolitan tracks since the opening of the racing season that Baron Maurice de Rothschild, himself one of the largest owners in France as well as deputy for Yvelines, has brought the matter to the attention of the French Chamber. Baron de Rothschild has asked the Chamber to pass a law for the suspension of book making in Paris and largest cities in France, the bookies to be replaced by pari-mutuel bookies in the cities.

The French government receives ten per cent on all money taken in at the pari-mutuel bookies at the various tracks. As the amounts bet at the different tracks vary from 5,000,000 to 10,000,000 francs daily the French government derives from the racing 100,000 to 200,000 francs per day.

Baron de Rothschild said, in the French chamber that more was bet with the bookies operating in Paris each day than at the tracks. Estimates that bookies' earnings per day were 100,000 francs in the city alone. This is a net loss in London tracks a day for the government. He charged that several races had been run with such fraudulent subsidies of crookedness that had such races been attempted in England, of course, the owners, trainers or jockeys would have been ruled off the turf for life.
